Map Milwaukee GIS Services

How to add City of Milwaukee GIS services to Esri ArcGIS.

1. In ArcCatalog, expand GIS Servers in the Catalog Tree and double-click Add ArcGIS Server. This will open the Add GIS Server window.

2. From the Add GIS Server window, select Use GIS Services and click Next.
Map Milwaukee GIS Services

3. Type http://maps2.milwaukee.gov/arcgis as the Server URL for an Internet connection and click Finish.

4. You can now see maps2.milwaukee.gov listed under your GIS Servers. Double-click to expand the connection and see the available services.
